

ULTRA-CLEAN 40[®]

Model No. 40250D

Ultra-High Pressure Water Jetting System

Model 40250D - 10 gpm (37.8 lpm)
at 40,000 psi (2,800 bar)

The NLB Model 40250D WaterJet System combines the power of UHP waterblasting with the dependability of a slow-running plunger pump design that has been proven in countless applications for over 40 years.

With pressures up to 40,000 psi (2,800 bar) and a flow rate of 10 gpm (37.8 lpm), the 40250D has the flexibility to perform a wide variety of water jetting applications, and allows for dual operator capability. Several of most common applications include surface preparation, cleaning, coating removal, and cutting. Since the unit's power comes from a slow-running quintuplex plunger pump, wear and maintenance are minimized. You save money on parts and have more uptime in the field.

Features include:

Trailer Mounting

- Heavy-duty tandem axle design
- 16.5 in. wheels (420 mm)
- Heavy-duty fenders
- Lights and electric brakes
- Size: 7' 6" wide x 6' 9" high x 15' 2" long
(2.32 m wide x 2.12 m high x 4.62 m long)
- Weight: 10,900 lbs. (4,950 kg) approx.

Skid Mounting

- Size: 5' 6" wide x 6' 1" high x 16' 8" long
(1.68 m wide x 1.85 m high x 5.08 m long)
- Weight: 10,000 lbs. (4,540 kg) approx.

Optional Accessories

- NCG8450A-3 Rotating Lance & Bi-Mode™ Valve
- Foot control valves & flex-lances
- SPIN JET[®] grate and floor cleaner

Specifications subject to change without notice.

All units are factory tested before shipment.
